

April 29, 2014

Dear Scott Donkin, DC:

I wanted to send you a thank you note for presenting at our annual Public Works and Utilities Safety Workshop. The Workshop was a total success and a highlight was your presentation on Sitting Well. Some of the feedback I received from the front-line employees was that they have not considered nor had anyone ever showed them how to sit properly. Other comments were that new employees should receive this information. I had a chance to take some pictures during the third presentation. I wanted to capture the overwhelming participation you created with the group. Although the pictures may be a little dark they do represent the activity.

Once again thank you for taking time out of you busy schedule to help the Public Works and Utilities group.
